Information for candidates

Non-examination assessments

Effective from 1 September 2026

Produced on behalf of:

©JCQ^{CIC} 2026

This document tells you about some things that you **must** and **must not** do when you are completing your work.

When you submit your work for marking, the awarding body will normally require you to sign an authentication statement confirming that you have read and followed the regulations.

If there is something that you do not understand, you **must** ask your teacher.

Preparing your work — good practice

If you receive help and guidance from someone other than your teacher, you **must** tell your teacher. They will then record the assistance given to you.

If you worked as part of a group on an assignment, for example undertaking field research, you **must** write up your **own account** of the assignment. Even if the information you have is the same, you **must** describe in your own words how that information was obtained. You **must draw your own conclusions from the data**.

You **must** meet the deadlines that your teacher gives you. Remember – your teachers are there to guide you. Although they cannot give you direct assistance, they can help you to sort out any problems before it is too late.

Take care of your work and keep it safe. **Do not** leave it lying around where your classmates can find it. **Do not** share it with anyone, including posting it on social media. You must always keep your work secure and confidential. If it is stored on the computer network, keep your password secure. Collect all copies from the printer and destroy those you do not need.

Do not be tempted to use any prepared or generated online solutions and try to pass them off as your own work – this is cheating. Electronic tools used by awarding bodies can detect this sort of copying.

You **must not** write inappropriate, offensive or obscene material.

Research and using references

In some subjects, you will have an opportunity to do some independent research into a topic.

The research you do may involve looking for information in published sources, such as textbooks, encyclopedias, journals, TV, radio and on the internet.

You can demonstrate your knowledge and understanding of a subject by using information from sources, or generated from sources, which may include the internet and AI. Remember, though, information from these sources may be incorrect or biased. You **must** take care how you use this material - you cannot copy it and claim it as your own work.

Using information from published sources (including the internet) as the basis for your assignment is a good way to demonstrate your knowledge and understanding of a subject. You **must** take care how you use this material though - you **cannot** copy it and claim it as your own work.

The regulations state that:

'the work which you submit for assessment **must** be your own';

'you **must not** copy from someone else or allow another candidate to copy from you'.

When producing a piece of work, if you use the same wording as a published source, you **must** place quotation marks around the passage and state where it came from. This is known as **referencing**. You **must** make sure that you give detailed references for everything in your work which is not in your own words. A reference from a printed book or journal should show the name of the author, the year of publication and the page number. For example: Morrison, 2000, p29.

For material taken from the internet, your reference should show the date when the material was downloaded and **must** show the precise web page, not the search engine used to locate it. This can be copied from the address line. For example: http://news.bbc.co.uk/onthistday/hi/dates/stories/october/28/newsid_2621000/2621915.stm, downloaded 5 February 2027.

Where AI has been used, your reference **must** show the name of the AI tool used and should show the date the content was generated. For example: ChatGPT 3.5 (<https://openai.com/blog/chatgpt/>), 25/01/2027. You should also acknowledge the sources used by the AI tool in generating the content.

You **must** retain a copy of the question(s)/prompts used to generate the AI content and the AI-generated content itself in a non-editable format (such as a screenshot) and provide a brief explanation of how you used it. This **must** be submitted with your work for final assessment so that your teacher can review the work, the AI-generated content and how it has been used.

You may be required to include a bibliography at the end of your piece of written work. Your teacher will tell you whether this is necessary. Where required, your bibliography **must** list the full details of publications you have used in your research, even where these are not directly referred to. For example: Curran, J. *Mass Media and Society* (Hodder Arnold, 2005).

If you copy the words, ideas or outputs from other sources and do not show your sources in references and a bibliography, this will be considered as cheating.

Plagiarism

Plagiarism involves taking someone else's words, thoughts, ideas or outputs and trying to pass them off as your own. It could also include AI-produced material. **Plagiarism is a form of cheating which is taken very seriously.**

Don't think you won't be caught; there are many ways to detect plagiarism.

- Markers can spot changes in the style of writing and use of language.
- Markers are highly experienced subject specialists who will be very familiar with work on the topic concerned. They may have read the source you are using or even marked the work you have copied from.
- Internet search engines and specialised computer software can be used to match phrases or pieces of text with original sources and to detect changes in the grammar and style of writing or punctuation.

Sanctions for breaking the regulations

If it is discovered that you have broken the regulations, one of the following sanctions will be applied:

- you will be awarded zero marks for your work;
- you will be disqualified from that component for the examination series in question;
- you will be disqualified from the whole subject for that examination series;
- you will be disqualified from all subjects and barred from entering again for a period of time.

The awarding body will decide which sanction is appropriate.

REMEMBER – IT'S YOUR QUALIFICATION SO IT NEEDS TO BE YOUR OWN WORK.

- However, sharing certain information (see information on the right) can break the rules and could affect your results
- If you're not sure what you can and can't discuss online, check with your teacher
- If you receive exam content on social media, you must tell your teacher
- Don't be caught out by scammers selling fake exam papers

Things to do on social media:

- Have fun
- Be responsible
- Report any exam or assessment content you see to your teacher

Things not to do on social media:

- Buy/ask for/share exam or assessment content
- Pass on rumours of what's in exams or assessments
- Share your work
- Work with others so that your assessment is not your own independent work

If you do any of the above activities, you may:

Information for candidates **AI (Artificial Intelligence and assessments)**

What is AI?

AI stands for artificial intelligence and can be used to create text, images, videos, music and artwork based on instructions given to an AI tool.

What is an AI tool?

AI tools are applications, such as ChatGPT, Snapchat My AI, Google and Google translate. There are many more!*

*The list of certain suppliers of AI-related products is for information purposes only and does not constitute an endorsement by JCQ and awarding bodies. It is each centre's responsibility to investigate and verify any suppliers they use, including any terms and conditions which govern the sale or use of the supplier's products. The list provided is not exhaustive.

When can I use AI?

- Your teachers may use it in class when teaching the course, but remember teaching in the classroom is not an exam!
- There are some assessments where you can use AI – your teachers will tell you if you can or cannot use an AI tool.
- Remember, the rules are different for different assessments and subjects, so always check with your teachers first!
- When an AI tool is allowed, **you must acknowledge**** the AI tools and the material produced by the AI tool that you have used in your work. If you do not acknowledge AI use, it will be **considered as cheating**.

When can I not use an AI tool?

- AI tools cannot be used in an exam or any other assessment where exam rules apply. This includes use or possession of hidden AI-enabled technology like smart glasses.
- This is what exam boards call **AI misuse and it is a form of cheating**.

• ****Acknowledgment** – When producing a piece of work, if you use the same wording as a published source, you must place quotation marks around the passage and state where it came from. This is known as referencing. You must make sure that you give detailed references for everything in your work which is not in your own words, for example, ChatGPT 3.5 (<https://openai.com/blog/chatgpt/>), 25/01/2025.

IF YOU USE AN AI TOOL, YOU CANNOT GET MARKS FOR WHAT THE AI TOOL HAS PRODUCED, AS IT IS NOT YOUR OWN WORK

If I'm allowed to use AI, how is this breaking the rules?

AI misuse is:

- when you use an AI tool in an exam or assessment where you are not allowed to; and/or
- where you use an AI tool to create work and then say it's your own.

AI misuse can have serious consequences including possible disqualification.

How to make sure you don't misuse AI

ACKNOWLEDGE

If you are allowed to use an AI tool in your assessment (remember to check!), you must do the following:

- reference the AI tool you have used
- give the date of when the AI tool generated the content
- give details of how you used it
- save screenshots of what you have asked or instructed the AI tool to do and what answer the AI gave you, and include this with the work submitted.

DECLARE

- Remember to sign your declaration form when handing in your work for final assessment.
- Your signature on the declaration form tells your teacher and the exam board that you are saying all the work you're handing in is your own.
- If you have used an AI tool, **you must declare***** that you have used it before signing the declaration form

*****Declare** – this means that when you submit your work for marking, the awarding body will normally require you to sign an authentication statement confirming that you have read and followed the regulations.

LAST CHECKS

Know the rules

Check with your teachers

ACKNOWLEDGE and DECLARE

EFFECTIVE FROM 1 SEPTEMBER 2026

What is AI?

- AI stands for artificial intelligence and using it is like having a computer that thinks
- AI tools like ChatGPT or Snapchat My AI can write text, make art and create music by learning from data from the internet, but watch out – they can also make things up and be biased

How can AI be misused in assessments?

AI misuse is when you take something made using AI and say it's your own work.

THIS IS CHEATING!

How do I make sure I don't misuse AI?

1 Know the rules

- You're **not allowed** to use AI tools when you're in an exam
- Your teachers will tell you if you're allowed to use AI tools when doing your coursework – the rules will depend on your qualification
- Even if you're allowed to use AI tools, you can't get marks for content just produced by AI – your marks come from showing your own understanding and producing your own work

2 Reference reference reference!

- If you're allowed to use AI tools, you must reference them clearly
